MORE INDIRECT TAXES

Nearly One-Third of State Revenue Shown Derived in an Indirect Manner

Imposition of new taxes within the last several years, as well as increase in the amount of the state tax levies, has been responsible for the great increase in the amount of taxes paid in North Dakota, according to a table showing the tax history of North Dakota, prepared by Lyman A. Baker, of the state tax commissioner's office.

The state now derives one-third of its revenues, exclusive of the motor vehicle tax, from sources outside of the regular state levy, it is shown. The imposition of new taxes, while serving to lessen the emphasis of the state tax bill, has brought the totals to a new high figure.

The state has paid \$14,338,549 in state taxes between 1917 and 1921, inclusive, it is shown in the table a companion to figures recently published showing the trend of the tax levies for the various periods since statehood. The total amount paid between 1890 to 1917, inclusive was \$23,028,247. The table shows that almost half as much actual tax was paid for the last five years as for the 26 years previous to 1917.

Among the new taxes listed are the inheritance tax, first provided for in 1909; the incorporation tax, in 1912, replaced by the capital stock tax in 1918; the oil tax of 1919; the money and credits tax of 1919; the income tax of 1920; the earnings tax on car companies and the hall indemnity tax. The motor vehicles tax is not included in the totals. An insurance tax has been collected since statehood, as well as the general state levy.

Although the new taxes have been levied the total general state levy in 1921 amounted to \$4,557,083 in 1910 to its highest point in 1920, when the total collected was \$3,130,477.

The insurance tax has increased yearly until it yielded \$340,000 in 1921; the inheritance tax yielded \$99,341 in the same year, the capital stock tax \$68,145; the oil tax \$174,951, expenses of administration not being deducted from this total; the money and credits tax, \$12,219; the income tax, \$437,750; the earnings tax on car companies, \$4,877, and the hall indemnity tax, \$501,246. The state levy for the same year yielded \$2,251,998.

IN RAIL CRASH

Investigation Is Begun Into
Northwestern Wreck

Chicago, June 3.—Nineteen persons were injured, two seriously, last night when Chicago and Northwestern passenger train No. 6 from Omaha to Chicago, was derailed near Quarry, Iowa, according to official reports received at the railroad offices here.

The train, an all-steel one, was derailed at a crossover switch and tipped partly over on its side. The derailment was said to have been caused by a bolt being removed from the heels of the switch point.

A full investigation has been started.

Summer Ceremonial Session of
The El Zagal Shrine Was
Held Yesterday

INITIATED A BIG CLASS

Fargo June 3.—About 1200 Shriners of North Dakota and members of their families were entertained here for the summer ceremonial session of the El Zagal Shrine. Thirteen Shrine clubs of the state were represented. The celebration culminated in a fireworks display.

One of the features of entertainment was the saxophone band of Lisbon, which was one of the many relieving the session.

Such complicated pyrotechnics as a picture of a camel, wearing over shoes to protect his feet from the heat of the sands, stepping across the desert were shown—fifty of them.

Pictures of President Harding, the flag, Mr. Lewis, a service button and the emblem of the shrine were among the fireworks as well as a "crazy wheel" and a kaleidoscope.

The program for the day and evening was as follows:

Morning: Registration, nobles and ladies, Masonic temple. Serenade by Shrine clubs. Auto tours of city. Visitation and inspection of El Zagal Park.

Afternoon: Twelve to one o'clock, basket picnic and flying circus, El Zagal Park.

Two o'clock, pageant procession. Three o'clock, ceremonial session first and third sections, Masonic temple.

Five to seven o'clock, traditional banquet. Evening: Seven o'clock, second section ceremonial session, Masonic temple.

Nine-thirty o'clock, grand fireworks spectacle, El Zagal Park.

STATE MAY NOT
COLLECT TAX

North Dakota may not receive inheritance tax from a Milwaukee estate because of a law passed by the last session of the legislature, according to Tax Commissioner C. C. Converse. The law provides that there shall be no inheritance tax on farm mortgages on North Dakota farms owned by people living outside the state, providing the mortgages were not owned by the non-resident prior to last July 1, the date when the act became effective. Whether or not the estate in question meets with the requirements of the law cannot be ascertained from information now on hand.

TALKS OF INTIMIDATION

Says That If He Is Elected Senator He Will Join Farm Bloc; Defends Himself

Wilton, N. D., June 3.—(By the Associated Press)—Speaking at a large farmers picnic near Wing yesterday afternoon and here last night, former governor Lynn J. Frazier commenced his campaign for the Republican nomination for United States Senator in the North Dakota primaries, June 28th next. He is opposing the present incumbent, Porter J. McCumber and is making the race with the endorsement of the Non-partisan League.

First of all Mr. Frazier declared that he would ally himself with the work with the farm bloc in the senate if elected, and reminded his hearers that all of the interests of North Dakota, excepting mining, were agricultural.

He then recounted the history of the league in North Dakota and the opposition it had met with—and warned his auditors that it was not a one day fight or a one hour fight in which they were engaged, but "that they must enlist for the duration of the war, and that that war would last as long as the present men and women were alive and as long as the little children now in the audience were alive." For such a length of time would the war against the common people continue, he declared.

Upholding his record as governor and the league program under his administration, Mr. Frazier presented the reduced rates on farm loans due to the farm loan department of the Bank of North Dakota, but charged that under the present administration few loans were being made and that up in the Red River valley interest charges had jumped to ten per cent and that the farmers were not able to get much money at that rate. He also presented the benefits to the people of the state in the Workmen's Compensation Bureau and the fire insurance Department and the progressive laws placed upon the statute books by the League Legislature.

Reports Today

Kervin, Tex., June 3 (By the A. P.)—Race riots of a serious nature were reported last night as being feared near here had failed to materialize early today. Armed men guarded the streets of Kervin, but according to the peace officers little further trouble was expected.

The report of a riot followed attempts of the city marshal of Kervin, Otis King, and deputy sheriff to arrest Leroy Gibson, a negro, Gibson is said to have tried to escape and was shot and captured. As the officers started for a re-training order to prevent Mathilde's marriage to the Swiss riding master.

The suggestion has come from friends that the whole court action had been resorted to as a means of keeping Mathilde in America as long as possible in the hope that she might voluntarily change her mind about marrying Oser.

Mother Dismisses Action to Prevent Mathilde's Wedding

Chicago, June 3.—The court fight against Mathilde McCormick's international marriage to Max Oser ended abruptly in less than two minutes proceedings in probate court today when Mrs. Edith Rockefeller McCormick, the girl's mother, withdrew her petition for a restraining order to prevent Mathilde's marriage to the Swiss riding master.

The suggestion has come from friends that the whole court action had been resorted to as a means of keeping Mathilde in America as long as possible in the hope that she might voluntarily change her mind about marrying Oser.

FEAR NAVAL BALLOONIST IN ONLY
BALLOON MISSING IS IN TROUBLE

Chicago, June 3 (By the A. P.)—Lieut. W. F. Reed, naval balloon pilot, whose bag is the only one unaccounted for in the national race which started at Milwaukee Wednesday, either is lost in the wilds of Canada or has met with some serious accident in the opinion of government weather bureau officials and aviation authorities here.

These officials explained that it is impossible for the naval balloon to be in the air now but whether it was brought down safely is not known. Some fear is expressed for the safety of the pilot and his aids, Chief Rigger Kent Mullenax, for they did not carry as extensive equipment as some of the other entries.

The naval bag was believed to be one of the five balloons sighted over the Lake Erie region Thursday.

BALLOON REPORTED SIGHTED
Erie, Pa., June 3.—A balloon carrying a bright light and flying several hundred feet above the waters of Lake Erie passed over the lake several miles off shore late last night, according to persons who observed it.

FARMERS' CO-OP
SALES BILLION

Chicago, June 3.—One billion dollars!

That's the amount of grain, livestock and farm produce the American Farm Bureau Federation expects farmers will market through co-operative selling agencies in 1922, says J. R. Howard, its president.

And the federation won't have to make much of a leap over its 1921 figure to achieve this 1922 aim. For in 1921 fully \$800,000,000 worth of farm produce

HOWARD was sold cooperatively. "The cureall for every agricultural problem lies in the farmer helping himself," Howard says.

"We're seeking to market farm produce through the farmers' own farm-controlled dairies, granaries, livestock and fruit exchanges, wool pools and other non-self-seeking agencies."

"And now every farmer is pulling with us toward this profit-sharing goal."

Membership petitions are deluging enrollment clerks in Howard's office here. Delegations constantly are streaming in from all parts of the country for advice.

Agencies and committees through which the federation is working out its cooperative plans are:

Grain committee operating the U. S. Grain Growers, Inc., with 50,000 members who will market cooperatively 125,000,000 bushels of wheat.

Livestock committee operating the National Livestock Producers' Association.

Dairy committee. Fruit committee operating the Federated Fruit Growers, a sales agency owned and controlled by growers.

Wool committee which has co-ordinated scattered wool pooling activities into a practical organization that marketed 22,298,856 pounds last year.

Tobacco and cotton committee. The Burley Growers' Tobacco Association, has been formed and now markets 80 per cent of Kentucky's annual yield of 160,000,000 pounds of tobacco.

Aged Tourist Reaches Bismarck
On Long Jaunt

Walter Wright, aged 66, is taking a long walk.

He arrived in Bismarck today from Billings, Montana. When he reached Bismarck he had walked about 5,600 miles on his journey, which started in Cleveland, Ohio, August 10, 1921. He walked first to New Orleans, then west to the Pacific Coast, up the coast to Portland, cut across to Spokane and then came east to Bismarck. He is going back to Cleveland.

Mr. Wright said he was walking for his health, and that he has improved in health since he began his journey. He left San Francisco February 4.

Mr. Wright makes about 25 miles a day, he said, carries a 20-pound pack and usually camps along the trail.

Oklahoma City, June 3.—Radio love is the latest development in wireless telegraphy.

Miss Dolly Smithson, of Gainesville, Tex., became enamored of the voice of Frank Birds, of Oklahoma City, her future husband, as it came to her through the ether seven days ago. Bird is director of an orchestra here which has been giving concerts broadcast by a local newspaper. Just before the orchestra played the director looked squarely into the emotional chasm of the transmitter and announced the name of the selections.

In a Gainesville drug store Miss Smithson and a number of friends listened in. A correspondence began and they were married.

Commercial Club of That City
Starts Action With Interstate
Commerce Commission

Fargo, June 3.—Formal complaint attacking railroad rates into and out of Fargo as compared to Duluth and Twin City rates has been filed with the Interstate Commerce Commission by the Fargo Commercial club, it was announced today.

Karl Knox Gartner, Washington attorney, who has been retained by the Fargo organization, filed the complaint. The commission is expected within the next few days to set the case for hearing in Fargo within the next 90 days, according to N. E. Williams, traffic expert of the Commercial Club.

Fargo demands to be placed on the same basis as Moorhead, Minn., on rates to and from Minnesota points. Equalization of rates as far east as New England and west to Montana points are asked.

SENATE WOULD
GIVE U. S. ARMY
133,000 MEN

House Limit Is Increased From
115,000 in Appropriation
Bill Passed

Washington, June 3.—Carrying an appropriation of \$341,755,000 the annual army appropriation bill was passed late yesterday by the senate. It fixes the size of the army for the next year at an average of 12,630 officers and 133,000 men.

Passage of the bill, which was without a record vote, followed quickly after a test vote, by which the senate accepted, 49 to 21, its committee's action in increasing the house figure on the size of the army from 115,000 to 133,000 enlisted men. The strength of 12,630 officers compared with 11,000 as voted by the house.

The senate disposed of the bill speedily, the measure being taken up for the first time yesterday and passed within six hours. All committee amendments except those affecting size of the army were acted upon within three hours, constituting what was regarded as almost a record by the senate.

Some opposition was expressed to 133,000 enlisted strength but Chairman Wadsworth of the military committee, in charge of the bill, pressed for the committee figure and was sustained as was the committee action on every other amendment to the house bill.

The measure now goes to conference with the house but it is not expected the discussions will begin before Tuesday.

Belfast, June 3 (By the A. P.)—Large parties of British troops, fully equipped left Inneskillen, county Fermanagh this afternoon for the border. They traveled in military and commandeered lorries. Many machine guns were taken along. The kitchen outfits accompanied the troops and they were evidently preparing for a long stay.

Belfast, June 3.—(By the A. P.)—The British forces in Northern Ireland were reinforced today by the arrival of 12 officers and 97 men of the Royal Air Force. They were followed by 12 fighting planes.

A battery of howitzers were also landed.

Several ships bearing English and Scotch regiments also entered the harbor today.

The Crown Forces are gradually replacing Ulster specials, who have been on duty along the border.

BREAK SAVED

London, June 3.—With a touch of the dramatic similar to that which featured the signing of the treaty creating the Irish free state last December, the negotiations between the British government and representatives of the Irish provisional regime tonight were saved from a possible break down by Arthur Griffith, president of the Dail Eireann, making a last minute answer to six questions put to him by the British cabinet yesterday.

The questions the British government asked have not been made public, but it is understood they concern the drafting of the Irish free state constitution and its relation to the treaty. They were submitted to Mr. Griffith and Collins, and after deliberating on them it was decided that Mr. Collins should return to Dublin and take counsel with his colleagues.

Later Mr. Griffith left the city for Ireland.

RAIL STRIKE

SAYS JEWELL

Believes Strike Ballot Will Follow Meeting to be Held in Cincinnati

Chicago, June 3.—A rail strike threatens the nation today as railway unions awaited the impending slash by the railroad labor board in the wages of additional classes of employees other than train service men.

E. M. Jewell, head of the railway employees department of the American Federation of Labor, declared the wage reductions would probably result in a strike vote following next Tuesday's conference of railroad union chiefs at Cincinnati.

PAY CUT ORDER HELD

Chicago, June 3.—Unexpected delay in the final approval of the shopcrafts wage reduction order formulated by the U. S. Railroad Labor Board prevented the expected announcement today and it was said at the board that the decision would not be made until early next week.

The shop men's cut will reach a total of at least \$50,000,000 a year, it was said.

FORD PROPOSAL
IS RECOMMENDED

Washington, June 3.—The house military committee voted today to report the Ford Muscle Shoals proposal to the house and recommend its adoption. Recommendation, however, will be made by the committee that the Gorgas steam power plant which is sought by the Detroit manufacturer be eliminated from the properties disposed of by the government.

FARM CLUBS TO MEET

Madison, N. D., June 3.—Announcement has been made of a large two days session of the United Breeders association and the Federation of Farm Clubs here for June 19 and 20. The special subject of the meeting will be dairying and a number of men prominent in the dairy work of the state have been asked to be present to help in the conferences.

In 1921 the world's production of coal dropped back to the level of production in 1909.

ELKS MINSTREL PRESENTED WITH GOOD SUCCESS

Large Crowd Witnesses Big Pro-
duction at the Auditorium
Last Night

REPEAT SHOW TONIGHT

The merry minstrel men of the Elks presented "Step Lively" at the Auditorium last night with conspicuous success, and will repeat the performance again tonight, the curtain to rise at 8:30 o'clock.

The big production, embracing about 80 characters, is in two parts and eight scenes, under the direction of Clint Draper. A wealth of color, beautiful scenery and bright, new costumes carried by Mr. Draper, enhanced the show. The music is tuneful, songs including many popular airs and some new melodies.

The first scene in the show is a peep into the Elks clubrooms when Draper is seeking to get men to take parts in the minstrel show. The scene gives opportunity for introduction of a lot of comedy and comic songs. W. J. Riggs opens the show leading the boys in singing "Hail, Hail." Joe Bellanger, who appears as natural on the stage as in a taxi, not only sang but did a little clog dancing. Henry Duemeland plays the harmonica with a wealth of feeling. Ray Chambers, who played the part of the club porter, sang Donald McDonald's song, "Leave Me Alone," and was right at home on the stage. George Russ scored with his nut song "Which Hazel," and Tom McNeese sang a little Hawaiian melody. The audience joined in the singing on the second scene, when Harry Bernstein sang "Crooning" and J. L. Kelly sang "Stand Up and Sing For Your Father." Bob Simpson presented a specialty, "The Parson's Protest"; Clint Draper and Vern Goddard a singing and dancing act, and Bob Webb and Henry Duemeland had one big argument, "The Lively Steppers," led by Vern Goddard, which included ten dancers and the old man dancing act of six people both scored.

The second part was the Elks Modern Minstrels, introducing Mrs. Arthur Bauer as pianist; Scott Cameron as interlocutor and Clint Draper as director. Comedians were J. K. Blunt, Bob Webb, James Taylor, Rudy Patzman, Bob Simpson, Tom McNeese, W. J. Riggs and Al Rosen. Soloists were Henry Halverson, H. H. Ferner, Frank Gale, George Humphreys, R. M. Gross.

The song hits include "Mandy 'n Me," "Moonlight," "Ain't Nature Grand," "The Sunrise and You," "Angel Child," "April Showers," "Oh, Brother, What a Feelin'," "Daisy Duke," "Out of the Shadows," and "I've Got My Habits On."

The chorus was composed of: C. A. Baker, F. A. Copelin, Pat Donahue, Norman Flow, Emmett Griffin, Roy Indeth, Hiram Landers, R. E. Morris, Wm. McQuillan, O. J. Ostrander, M. H. Rogers, C. H. Schmierer, A. C. Wilkinson, Harry Bernstein, Ray Chambers, Henry Duemeland, A. L. Fosterson, Lloyd Harris, J. L. Kelly, Elmer Lilleskov, Andrew Munson, J. W. McGowan, Neil Omay, H. C. CAVALIER CO. TO HOLD PILGRIMAGE SCHOOL MEETING

School officials of Cavalier county have invited Miss Nielson, state superintendent, to be a guest at a pilgrimage school meeting to be held in that county on June 8. Miss Nielson is informed that the 200 school officials of the county will be present and take part in the different events of the pilgrimage.

The cars, bearing the school officials of the county will leave Langdon at 8 o'clock in the morning. At the first stop certain items of the schools will be used for demonstration and certain men will make addresses for the information of the rest of the school men.

The cavalcade will continue in this way throughout the day, using some of the schools as a laboratory course in architecture, some for landscaping, some for studies in finance and the care of physical properties while in others the problems in which the teacher needs the understanding and cooperation of the school official and the parents will be emphasized.

The pilgrimage will make the half way stop at noon at Munich, where coffee will be served and the entire party will partake of a picnic luncheon. The return to Langdon will be in the evening.

Sidney W. Hooper, of the extension division, agricultural college. Mr. Hooper, who is in charge of the work says that the state sow thistle law will be enforced by appointment of a weed commissioner in each county commissioner's district. This law specifies that it is illegal for any one to let sow thistle go to seed and gives the commissioner power to go on to the farmers land and cut down the growing crop, if necessary, to prevent the weed from seeding.

Education is to be one of the large factors in the campaign, however. Grains are choked out by the weed, according to Mr. Hooper, and thousands of acres in the past few years have been so ridden by the thistle that it did not pay to harvest the crop that remained.

The weed was first discovered in North Dakota in 1900 at the northeast corner, having come in from Canada. The wind blows the seed and the spread southwest has been at the rate of about twenty miles a year, according to Mr. Hooper.

FORD TURNS OUT 6,000,000th MOTOR

Next One Comes Through 5-1/3
Seconds Later

Ford Motor Number 6,000,000 was lifted from the assembly line in the Highland Park Ford Plant at 9 14 a. m., May 18th. Just 5 1-3 seconds later Number 6,000,000 was finished.

The unusually heavy demand for Ford cars and trucks at the present time has necessitated the building of 5,400 motors daily. These are shipped in carload lots to the various Ford assembling plants throughout the United States.

The first Model "T" Ford motor was completed on October 1st, 1908; number 1,000,000 left the assembly line December 10th 1915; and number 5,000,000 came through May 28th, 1921.

Although the Ford Motor Company turned out a number of different models prior to 1908, the present numbering system began with the first Model "T."

LAHR MOTOR DISTRIBUTES NEW ORDINANCE

The Lahr Motor Sales company has mailed to many automobile owners copies of the new traffic ordinance of the city, with this suggestion: "May we suggest that if every one who drives a car will thoroughly post themselves on these traffic regulations, it will eliminate a great many accidents and make driving in traffic a great deal easier and more pleasant."

"Repairing motor cars is our business, but we don't want work as a result of accidents that can possibly be avoided."

"Repairs as a result of wear and tear and unavoidable accidents, are handled by us at a saving to you, and satisfaction guaranteed."

Hurry Kids—Big Wild Animal Show on the Way With Clowns and Everythin'

Advance cars with their half-hundred billers and agents, contracting for supplies and railroad accommodations; special advertising men engaging space for banners, and publicity men are passing through the city blazing the way for the coming on Monday, June 12, of Christy Brothers' Four Ring Wild Animal Exposition.

It will not be long before the long train of double length cars steam into the city and all the familiar activities of the big show will be with us—and many that are not familiar, but none the less attractive for all that—for Christy Brothers' Big Four-Ring Wild Animal Show carries in every department things new to the show lot—from motor and electric contrivances to its four-ring, hippodrome and steel arena performances; from its three electric light plants, portable folding grand stand to its lengthy, impressive and novel milelong street parade.

The canvas city of the combined shows covers ten acres of ground. There are hundreds of people, horses and animals with the show while the trained wild beasts furnish thrill in proper big show abundance.

MILK SERVED CHILDREN IS HELD BENEFIT

Miss Esther Teichmann, School
Nurse, Makes Report Upon
Her School Work

GAINS ARE REPORTED

In making her quarterly report to the Board of Education, Miss Esther H. Teichmann, R. N., school nurse, expressed her deep appreciation for the ready assistance given her in connection with her work by Supt. J. M. Martin, the teachers, and members of the Community Council.

The results which she obtained would have been impossible had it not been for the help of these people and organization, she says.

"The serving of milk in the schools has been of great benefit to the children and many of them have shown great improvement. The pupils of the William Moore school were not re-weighted, because of the lack of time, but in reweighing the pupils of Wachter, Will and the Richholt schools it was found that many of them had gained," declared Miss Teichmann in her report.

The gains were as follows:

Wachter school, average gain per pupil, 3 lbs.

Richholt school, average gain per pupil, 2 lbs. plus.

Will's school, average gain per pupil, 1 lb.

The following figures cover the period from March 13 to June 1.

The prizes have been offered to university students for biographical sketches of North Dakota pioneers by Miss Minnie J. Nielson, superintendent of public instruction, in honor of her mother. There were six entries.

BISMARCK IS HEADQUARTERS OF ARMY TRAIN

Eighty-Eighth Division Reserves
Trains to be Organized by
Capt. Waggoner

Organization of the 88th reserve division trains has been undertaken in North Dakota by Capt. R. J. Waggoner, U. S. A., assigned to the state for that purpose by the headquarters of the division. Capt. Waggoner today outlined the plan of organization.

The war department is creating reserve divisions in various parts of the United States as a part of a national defense policy. Officers of the World War and graduates of Civilian Training Camps are to be assigned to commands in the reserve and an enlisted personnel created. The reserves are to be called only in case of national emergency.

The advantage, Capt. Waggoner says, is that organizations will be called instead of individuals, and individuals are given the opportunity of joining an organization in which they would like to serve.

Headquarters of the division trains will be in Bismarck. The officers and personnel will be secured from the entire state. Companies in the organization are allocated as follows:

Motor Transportation Company No. 349, Fargo, embracing counties of Cass, Barnes, Ransom, Richland and Sargent.

Motor Transportation Company No. 350, Jamestown, embracing Wells, Kidder, Stutsman, Logan, La Moure, McIntosh, Dickey counties.

Motor Transportation Company No. 251, Grand Forks, embracing Grand Forks, Trafton, Nelson, Foster, Steele, Griggs and Eddy counties.

Motor Transportation Company No. 352, Dickinson, embracing McLean, Mercer, Stark, Slope, Bowman, Adams, Hettinger and Oliver counties.

Motor Repair Section No. 325, Williston, embracing the counties of Burke, Divide, Williams, Golden Valley, McKenzie, Mountrail, Dunn, Billings.

Motor Repair Section, 326, Mandan, embracing the counties of Burleigh, Morton, Sioux, Sheridan, Emmons.

Wagon Company No. 326, Minot, embracing Ward, Renville, Bottineau, Rolette, McHenry, and Pierce counties.

Headquarters of the division are at Minneapolis. The motorcycle com-

pany, part of the 88th division trains, will be organized in Waterloo, Ia.

THEO. NELSON ALLEGES LEAGUE-M'CUMBER ALLIANCE TO DEFEAT I. V. A. STATE ADMINISTRATION

Declares Somebody Violated Confidence in Giving Out His Letter to Kelly and Jackson. Declares Printing of "Plunder Demand" Shows that McCumber Is Against Re-election of Nestos.

Theodore G. Nelson has added to the epistolary papers of the campaign another interesting letter which will take its place side by side with the famous letter demanding political plunder as his price to support McCumber.

Nelson's statement follows in part:

"In justice to the voters of the state who are sincerely seeking information on the issues which they are called on to help to settle with the famous letter demanding political plunder on June 28, it is my duty to call attention to a most brazen attempt to mislead the voters of the state by means of an article which has appeared verbatim, headlines and all, in a number of league papers and the Bismarck Tribune that are opposing the Nestos ticket.

"Those who wrote and inspired that article are apparently prompted by a desire to wreak vengeance on me personally. If that were the only purpose and effect of this article, then I should pass it up without notice, as I have done with so many articles that have been written and published in the Tribune and other league papers for the same purpose in the last few years. But this article is also an effort to stir up such feeling in the state over the senatorship that people will lose their heads and forget that the question of who is in charge of our state government is of even greater importance than who shall be one of North Dakota's representatives in the United States senate. It would be a very bad thing for North Dakota to be represented in the United States senate by Lynn J. Frazier, but he would be only a one-ninth-sixth part of the United States senate, while those in charge of our state government are the whole cheese, in North Dakota and for North Dakotans. Both are important without question, but as between the two the state ticket is the more important. This is generally conceded by every citizen who has no selfish interest back of his political activity.

"I am not a candidate for any office, nor am I seeking my appointment in either federal or state government and am therefore free from handicap of personal ambition in my effort to do what I can to get the truth about the handling of our state affairs to the voters as well as to make known to them what the ideals and promises of the anti-Townley candidates are.

Letter Published

"The occasion for the article is the publication of a letter which I wrote to Messrs. A. B. Jackson and J. M. Kelly at Devils Lake a few days before the Jamestown convention. The summary, comments and conclusions, that are built around the letter are so far at variance with the facts stated in the letter as to become deliberate falsehoods.

Gave Letter to Hughes

"Before proceeding to point out some of the glaring inconsistencies it is proper that the voters should know that in this connection somebody is guilty of a very ungentlemanly breach of confidence. The letter was written in confidence to Messrs. Jackson and Kelly in reply to an inquiry as to how I sized up the sentiment in the state with reference to Senator McCumber's candidacy for re-election. I have never given a copy of it to the public press nor in any other way made it public. It was the property of Messrs. Jackson and Kelly, as much as mine. Furthermore, I had no reason for making any public statement as to my size-up with reference to Senator McCumber's candidacy.

"A few days after I had written this letter, but still prior to the Jamestown convention and prior to Senator McCumber's visit to North Dakota, Mr. R. J. Hughes, manager for Senator McCumber, asked me to come up to his room. He also wanted to discuss the sentiment among the voters as to McCumber as I sized it up. I answered by saying: 'I can give you that most concretely and in the shortest time by giving you a copy of a letter which I have drafted on that subject for Messrs. Jackson and Kelly.' I am informed by these two gentlemen that they have not given out their letter or copy of it to any one.

Hughes Passed It Out.

Mr. R. J. Hughes admits upon inquiry that he has had copies made of the one I gave him and 'handed them around,' and that they might have reached the league press that way. (Also incidentally stated that he had had copies made of the several questions which the Republican Central Committee framed and addressed to Senator McCumber as setting out matters upon which the committee would like an expression from the senator at the time that he met with the Republican Central Committee in April, and that he (Hughes) had done that for the purpose 'of showing the voters of the state that what the Republican Central Committee wanted was "patronage.")

Some Close Harmony

"This breach of ethics indicates a very close working relationship between the McCumber headquarters and the Bismarck Tribune and league papers that are doing all they can to prevent the nomination and election of the Nestos ticket.

Attempts at Deception

"The inconsistencies in the article in question can perhaps best be set out by quoting from the summary, comments and conclusions and comparing those quotations with the facts stated in the letter.

"What was stated in the letter on the same subject reads as follows: 'I further beg to respectfully suggest that the foregoing paragraphs represent only my personal views on the proposition, which you have broached.'

"I also beg to state that his statement is not a statement of conditions upon which the Independent Voters of the state will join in or approve of your proposition. I should want to lay the whole matter before the state

DIPLOMAS ARE GIVEN TO FOUR AT ST. MARY'S

Graduation Exercises Consist of Impressive Talk and Fine Program

FIRST COMPLETE COURSE

Heretofore St. Mary's Building Has Been Too Small to Give Complete H. S. Course

Graduation exercises for the four members of St. Mary's school were held yesterday afternoon in the school auditorium. Rev. A. H. Slag delivered the address of the afternoon. Father Hillner presented the graduates with their diplomas.

This is the first year that a complete course of study has been given in St. Mary's school. Heretofore the building has been too small.

The stage was completely covered with ferns and white roses, and yellow snap dragons, the latter being the class flower. The floral combination of papal yellow and white carried out the class colors.

Father Slag's Talk

Father Slag made a very impressive speech to the members of the graduating class. He gave a short but beautiful explanation of the class motto, showing them that in their future life many rocks would be thrown in their way. These they

where told they could overcome if they developed strength and bravery of heart.

He emphasized the importance of a complete education of both heart and mind, and gave some friendly advice on the future life.

At the conclusion of the exercises Mr. and Mrs. H. O. Batzer and Mr. and Mrs. A. A. Simmer, and Mrs. Forstall, all of Hazelton, entertained the class and the teachers with a picnic at Apple Creek, where a delightful afternoon was enjoyed. In the evening after substantial picnic supper the picnicers returned to their home.

Four in Class.

Members of the graduating class were Misses Viola Simmer, Florence Gertrude Randall, Anna Marie Manning, and Josephine Bernadette Cervinski.

The afternoon's program follows: Instrumental—Piano Solo—Viola Simmer. Song—High school Student Body. Instrumental—Cornet Solo—Loretta Simmer. Vocal—"Somewhere a Voice is Calling"—Anna Marie Manning. Valedictory—Florence Gertrude Randall. Address—The Rev. John A. H. Slag. Presentation of Diplomas—The Right Rev. Bishop Wehrle, O. S. B. Instrumental—Piano Duet—Dorothy Cook, Viola Simmer.

Traverse City, Mich., June 2.—Announcement by Mayor Swanton yesterday that wearing of knickerbockers by women had been banned in this city brought quick reaction from club women, shop workers, clerks, stenographers and high school girls when plans were formulated today for a parade in protest against the mayor's order. The marchers, it was said, would defy the mayor's edict and parade through the streets in the forbidden raiment.

Service Rendered by Co-operation

ONE of the most perfect forms of industrial service is that which results from co-operation between manufacturer and consumer.

Recognizing this, the Standard Oil Company (Indiana) has developed a service bureau headed by lubricating engineers of wide experience whose business it is to co-operate with designers, manufacturers and users of all types of machinery that they may get a maximum of correct lubrication at a minimum of cost.

In developing this service the Standard Oil Company (Indiana) had a two-fold motive — first that Standard Oil products shall render the utmost of service and second that the user shall get full value for the money he spends.

As a result of this service the customer finds it unnecessary to carry on costly experiments. The lubricating specialists of the Standard Oil Company (Indiana) will, upon request, study his problems and tell him the exact oils and greases needed to insure correct lubrication of his machinery.

This highly specialized service is rendered without cost. It is one of the underlying principles of this Company that the customer must be given the benefit of our wide experience, that his lubricating costs per year may be as low as possible.

In the individual plants, large and small, which the lubricating engineers of the Standard Oil Company (Indiana) have served, this principle is well recognized.

Plenty of oil does not necessarily mean good lubrication. Correct lubrication consists in applying the right oil in the right place in the right way.

To enable its patrons to achieve correct lubrication is the business of the lubricating engineers of the Standard Oil Company (Indiana).

This lubrication service is but one of the many specialized ways in which the Standard Oil Company (Indiana) serves industry and hence serves society.

FRAZIER TALKS STATE ISSUES OPENING FIGHT
(Continued from Page 1)
Commission, J. N. Hagan, Wm. Lemke and himself, because the Industrial Commission refused to compromise with the financial interests during the legislative session of 1921. These attempts to compromise, he said, came only when every possible effort to repeal the league laws had been made by the opposition and it had found itself without vote minority in the senate.
Referring to the indictments against a number of the members of the league, Mr. Frazier held that the farmers had been excused from duty on the grand jury at Fargo until two men were on the jury who were not residents of Fargo, that the jury was called at a time when the farmers had to be in their fields, busy in putting in their crops. He also called attention to the fact that the principal witnesses before the grand jury were men who had been kicked out of the League, Waters, Dinton, et al.
He warned his hearers that some members of the league had been kept from voting at the recall election by threats, that in some parts of the south, the negroes were kept from voting by the threat of being shot and that if it was not the wish of the people of North Dakota that these conditions should become existent in North Dakota, it was their duty to make the fight in the polls, and to vote regardless of the pressure brought to bear upon them to remain away from the voting booth. The lack of two more voters in each precinct, he stated, resulted in the losing of the recall last fall.
Refers to Supreme Court.
He reminded his hearers that the supreme court of the United States recently had decreed that the State of North Dakota had no right to grade its own wheat, that when it was sold on an elevator in the state it immediately became interstate commerce, but called attention to the fact that the same supreme court had followed this with a decision that the United States had no right to regulate child labor, that this was the state's business.
In closing he referred to the attempts being made to convict war profiteers, of the struggle against this attempt, and declared that the profiteers, the makers of blood money were worse than any of the slackers. He declared himself as opposed to the Esch-Cummins bill, that guaranteed interest on the millions of watered stock in the railroads, condemned the seating of Newberry and the men who voted for this, calling attention to the fact that Senator McCumber had voted for both the Esch-Cum-

mins bill and the seating of Newberry and in the first minutes of his speech gave unqualified endorsement to the entire ticket entered at the Fargo convention of the league.

NEW CHINA WAR IN THE MAKING
Peking, China, June 3 (By the A. P.)—General Wu Pei-Fu, who recently wiped Chang Tso-Lin's Manchurian war lord from the state of Peking policies, today declared that if Sun Yat Sen, president of the Republic of South China, persists in opposing plans for the unification of China, he too must be eliminated by the sword, if necessary.
General Wu said that he would launch a drive against the forces of the southern government without delay. He branded Sun Yat Sen as a "fanatic" who believed he possessed spiritual power before which armies melted and opposition died. Sun's plan to enter the Yangtze valley and conquer the north he labeled as "fantastic."

Services tomorrow—Whitsunday.
The Christian festival of Whitsunday corresponds to the Jewish festival of Pentecost, as the Christian Easter corresponds to the Passover. As Pentecost was instituted to commemorate the giving of the law on Mount Sinai and a day of thanksgiving for harvest, so Whitsunday commemorates the outpouring of the Holy Spirit and the ingathering of the first fruits of the church of Christ. So this is a very important festival in the Christian year and the faithful should be present in church.
10 A. M.—Holy Communion.
10 A. M.—Church Sunday school.
11 A. M.—Choral Eucharist and sermon.
Whitsunday hymns will be sung and a sermon appropriate for the occasion will be preached by the Rector. Subject: "Has the Church Failed in Her Divine Mission?" This is a vitally interesting topic. Come and take your part in the services tomorrow.
Calendar for the coming week:
Monday 7 a. m. Senior scouts leaving for camp at Brein near Cannon Ball.
Wednesday, Junior Girl Scouts meet under the charge of Misses G. Jones and Louise Berndt.
Friday 7:30. Senior scouts will meet to make their final arrangements for camp which will be held at Apple Creek the following week.

RATE HEARING ON JUNE 8
Hearing on the interlocutory injunction issued in the case of the Northern States Power company, of Minot, against the state railroad commission will be in St. Paul on June 8, according to a stipulation entered into between attorneys for the company and the commission. Hearing had previously been set for June 1.
The Northern State Power company obtained an order from Judge Miller restraining the railroad commission from enforcing a lower schedule of rates for electricity and steam heat in Minot. The case will be heard on its merits before three federal judges in St. Paul.

CAPITOL
A story that abounds with romance, action and human interest is promised in "Handcuffs or Kisses," a new Selznick picture starring Elaine Hammerstein, which on Monday will be in a two-day engagement at the Capitol theater. "Handcuffs or Kisses" was written by Thomas Edgelow and appeared first in story form in "Young's Magazine" and is said to be an ideal vehicle for the popular Selznick star.
The story tells of the hardships endured by a young girl while "doing time" in a large reformatory. There is a big riot scene in which the inmates overpower the guards and flee the institution and there are many portrayals of the brutal punishments unnecessarily applied to the unfortunate who are committed there—many of them unjustly.
The star is provided with a strong dramatic part in which she rises to exceptional heights and her support is both large and adequate. Robert Ellis plays the leading male role and the cast includes Florence Billings, Julia Wayne Gordon, Ronald Schabel, Edwards Davis, Dorothy Chappell and

1. Trouble in China
2. Irish Groups Confer
3. Egypt Self-Ruling

The civil war which has been raging in China and causing concern to the United States and other nations interested in Chinese trade, is practically over.

But now new trouble has arisen in China that will cause fresh worries to our country and to European commercial nations.

Reports from Unga, in Mongolia, an inner part of China, says that a Bolshevik or communist government has been set up there.

The reports say this government has been set up by Russian Bolshevik agents who came from the Far Eastern Republic of China, in Siberia. The Russian soviet government, it is said, has recognized the new Mongolian government.

The Mongolian government, according to the reports, has asked American merchants and other foreign merchants in Mongolia to turn over at once all their property to the Mongolian government.

This annoys our government and it is almost certain that trouble will result if the Bolshevik government in Mongolia lasts.

Many American business men are interested in the fur, hide and wool business in Mongolia. If their possessions are seized they will lose heavily.

Our government, of course, must protect its citizens who are in business abroad. Consequently our government probably will ask the Chinese government to send soldiers to Mongolia to restore order. If the Chinese government is not able to protect the interests of our people in Mongolia, our own government may take a hand in the matter.

What is the meaning of the term "communist government?" That means a government that does not believe in private property—that believes in the state owning and operating all factories, stores and industries for the benefit of the people instead of for the benefit of private investors.

GASOLINE OUTLOOK
Passenger cars and motor trucks in United States total beyond 10,500,000 on basis of latest census by National Automobile Chamber of Commerce. Auto industry is beginning to consider an output of 1,800,000 passenger cars and 300,000 trucks the normal figure for a year's production.

This is the basis of the oil trade's optimism about the future of the gasoline industry, which is regulated by use of motor cars. Gasoline sales this year apparently will break all records, probably exceeding 6,000,000,000 gallons for domestic and export consumption.

FAILURES
Business failures total 448 in one week, compared with 303 in corresponding week of 1921.

STEEL PRICES UP
Steel prices continue upward, the eight leading steel commodities now averaging \$46.20 a ton, which is \$4.08 a ton higher than 10 weeks ago. The average was \$37.11 in the 13-year period, 1901-1913.

FAVORABLE BALANCE
Foreign trade outlook is better. In April, exports exceeded imports \$104,000,000, which leaves America "to the good" at a rate of about \$1,250,000,000 a year. Money value of exports is nearly as big as a year ago.

Says Man was Wounded and
Taken to Mother's Home

New Rochelle, N. Y., June 3.—Examination of James Cunningham, a race track follower, arrested in connection with the killing of Clarence Peters under mysterious circumstances that have involved Walter Ward, of New Rochelle, was planned by authorities.

Cunningham was arrested as a material witness. He stated that the man wounded in the battle with Ward following attempted blackmail had been taken to his mother's home and that the man told him about the blackmail plot to force money from Ward several days before it occurred. Detectives are searching for the wounded man whose name and probable hiding place were revealed by authorities.

PEOPLE'S FORUM

WILL DONATE PARK

Editor Tribune,
Dear Sir:

In your paper of May 23rd just received, an article appears stating I made an offer to donate to the city of Bismarck for park or playground purposes about 4 1/2 acres of land in the Lincoln improvement addition. This I would like to correct as the facts are somewhat misstated.

Last year when your valuable paper was agitating for parks and playgrounds for Bismarck I wrote one of your city commissioners that I owned one thousand dollars worth of stock in the Lincoln addition which I would gladly donate to the city for park or playground purposes and asking the commissioner to take it up with the officers of the Lincoln addition to ascertain if they would be willing to deed to the city three or four acres of the addition for this stock. I have not heard a word from anybody about the proposition to date. But will say that I am ready to deliver over the stock for the purpose stated. Going out of town on the south or Fort road there is most always a lot of children playing in the road and it's a wonder some one has not been injured before this. In order to give these children a safe place to play I made the offer. I hope

the officers of the addition will deed over to the city as large a lot or piece of land as the stock should purchase to be used solely for park or playground purposes.

Yours truly,
HENRY TATLEY.

LET US REASON TOGETHER

A very remarkable statement occurs in a recent issue of the Mandan Pioneer which asserts if Mr. Stegner were elected he could not carry out his program without violating his oath of office.

The Nestos administration has ceased the Homebuilding operations, yet no one has accused the governor with violating his oath of office. The work stopped automatically when the money ceased coming in. Such was true of the Bank of North Dakota for several months. It marked time, but no one accused the governor of violating his oath. In fact a great sigh of relief went up over the state.

If the people emphatically say they are through with state socialism and endorse the Stegner platform, the legislature will hardly have the effrontery to prevent the passage of bills liquidating the various industrial enterprises.

There is nothing to prevent scrapping the Grand Forks mill and elevator the day after inauguration of a governor committed to such a plan. Neither is there any barrier to reduce the Bank of North Dakota to a rural credit department, such as has been handled by the Land commission for years. The bank could be handled in one of the present offices at the capitol without effort and a horde of employees dismissed much to the satisfaction of the taxpayers.

If Stegner were elected, even without legislative authority, he could practically nullify the expensive program in compliance to the voters' instructions and completely eradicate state socialism by the route of a constitutional convention which is part of his platform.

The Mandan Pioneer should read Mr. Stegner's platform. It comprises what the Forum and the Pioneer have been preaching for months. The only difference is that Stegner thinks the time has passed for prating about abolishing state socialism and that the hour is opportune to act. That is what he proposes to do if elected and he would be able in such an event to demonstrate to the Mandan Pioneer what a big job of scrapping can be done without violating his oath.

As for the charge that The Tribune "is not exhibiting good faith when it bolts the acts of both the Devils Lake and the Jamestown conventions," there is hardly any answer necessary. The Tribune never accepted the dictum of either political power. It is through with compromises on state socialism and if the Mandan Pioneer desires to ride the coat tails of the I. V. A. henchmen that is its own business and may the voyage lead them into green pastures.

SAVED

Uncle Sam is spending less of your money, which is good news, though under the sugar coating is the bitter pill that there's less money to spend.

In the 10 months ended May 1, the "ordinary expenses" of the national government were nearly a billion and a half dollars less than the corresponding period a year ago.

Spending totaled \$2,820,000,000. Biggest item of this was \$772,000,000 which went for interest on the public debt. It emphasizes the great war burden we must carry for years. A "billion-dollar Congress" may be an impossibility in our lifetime, though there's still much room for economy.

PROFITS

Profits of wheat exporters last year averaged a third of a cent a bushel, compared with 8 cents the year before.

This is reported to the Senate by Federal Trade Commission.

At this rate, exporters' total profits on our huge shipments of wheat to other countries in 1921 were only \$1,185,170. Yet wheat exports last year were nearly four and a half times as big as the five-year average, 1910-1914.

We are in a period of a big physical volume of business and small profits. That is the general business situation in a nutshell.

ALASKA

President Harding thinks of taking a trip to Alaska this summer. If he goes, he will find there a population of only 55,000, compared with about 65,000 a decade ago.

Alaska's lure is undergoing a slump. The gold boomers have mostly drifted away.

Alaska will come back, when Americans waken to its enormous opportunities. For one thing, it has enough standing timber in the Tongass and Chugach forest reserves to produce enormous

quantities of lumber and 2,000,000 tons a year of wood pulp for paper. Properly conserved, that production could be almost perpetual. Not as luring as gold, but more valuable.

SPEED

When Andrew Jackson went to Washington as president, it took him 30 days to make the trip from Tennessee.

The other day, Bert Acosta flew 208 miles an hour in his "Wildcat" airplane.

At Orly, France, the world's largest biplane is tested out. It travels 100 miles an hour, carrying cargo of seven tons, including 20 passengers.

We travel faster now, but you notice there are fewer Andy Jacksons.

ASHES

The war set civilization back half a century. It will take 50 years to recover to "normal." This is the view point of Dr. Robert Simpson Woodward, ex-president of Carnegie Institution.

Woodward also sees a silver lining to the cloud. He thinks a super-science is rising from the ashes of the war, which unquestionably was an enormous stimulant to science. That is especially true among the people, one reason for the radio craze.

It is the old story. Progress is painful, its price terrific.

SODA-FOUNTAINS

How much do you spend at the soda-fountains, which are beginning to hiss loudly, getting in training for the rush season of hot weather?

The country's 100,000 soda-fountains this year will take a billion dollars of the people's money, according to trade estimates.

It seems an enormous sum. The nation's booze bill, however, was two and a quarter times as much in 1914.

GRAIN

Russia will not be able to export grain for at least five years. That is the report of a special agent of the Department of Commerce.

With Russia out of the running until 1927, American grain growers could be reasonably sure of good foreign markets, also better prices than if a flood of grain were pouring down through the Dardanelles.

There's many a slip, etc., however. Five years is a lot of time.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

CHILD LABOR

The Federal Tax Child Labor law, just declared unconstitutional by the United States Supreme Court, would have reached but 15 per cent of the 2,000,000 children from 10 to 15 years of age engaged in gainful occupations in the United States. Of the 300,000, one-half are, at a guess, in States where the standards are as high at least as those which the Federal law would have set. The child labor problem would, therefore, even if this law had been found constitutional, remain, in the large, a State problem.

It is only some such sweeping constitutional amendment as that now proposed by Representative Fitzgerald of Ohio, giving Congress power to regulate the employment of all persons under 18 years of age, that could relieve the several States of the obligations to protect each its own children. The way of a constitutional amendment, however, as Senator Pomeroy says, "is a long and tedious route." And if the labor of the entire child population of America up to 18 were to be placed under direct regulation of the Federal authorities, the logic of such a policy would ultimately usurp all public control of the child in other matters affecting his health and education.

The obvious thing to do immediately is to push for proper protective State legislation. The child—to do all that is humanly possible—make the States realize their responsibility. In several States a "children's code" has been constructed or is being framed, as here in the State of New York, embodying the combined advice of those interested in industry, whether as employees or employers, farmers, merchants, educational and health authorities and child welfare experts. These "children's codes" can be made flexible enough to meet differing conditions in different States, and at the same time assure the child among the beet fields of Colorado, for example, the same chance that the child in the most favored locality has.

The most effective method for doing this is not the negative one of forbidding employment, but the positive one of compelling attendance at school. The Federal Government can be helpful in this way, through such legislation as has been proposed by the National Education Association in the bill providing for a Federal Department of Education and Child Welfare. Under this bill grants in aid would be made to the States maintaining certain minimum standards of school attendance on the part of the children. This policy would encourage the States to do through the schools what the suggested constitutional amendment would require the Federal Government to attempt, through another army of agents and inspectors. The forces interested in preventing child labor should turn their support to this alternative.—New York Times.

THIS CONFERENCE BUSINESS IS SPREADING FAST

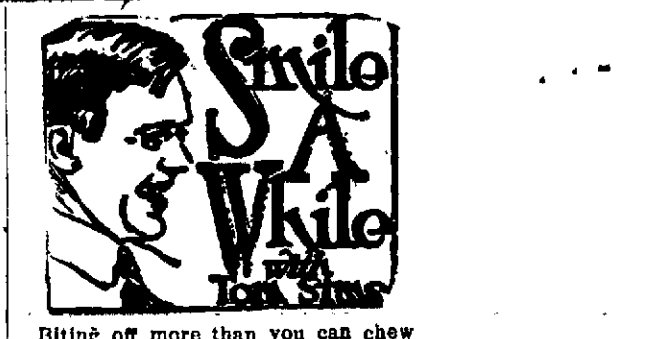

WHAT IS MOST NEEDED BY THOSE WHO WOULD ENTER PUBLIC OFFICE

BY MARY GARRETT HAY
Chairman of New York City League of Women Voters
Many young people of the day desire to prepare themselves to hold public office, to reach either a minor position or one of major importance. This is a legitimate ambition. To prepare for such a career, a good education is a splendid foundation stone, as it is in every kind of work. While it is not essential that the person seeking office be an orator, it is true that the ability to make a fluent and forcible speech is a great help. Affiliation with a major party is the next step. Good hard work comes next. Then the person is ready to run for office, or to accept a position where experience and training qualify him to ask for an office, that is the appointment. Many young men and women, having a knowledge of stenography and typewriting, have become secretaries to public officials, and then have advanced to better and better positions, finally reaching those that are quite worth while. Ability must be shown and faithful work must always be performed. The government would be better off if more young people planned to become officeholders and trained themselves for the work. We now have men put into office, often, when they know nothing about the work and have a lot of valuable time learning. There is always, of course, the possibility of disappointment in running for office and in trying to get appointed to a good position. The field is limited. However, if young men or women seem to have the necessary attributes, it is a good thing for them to select just what they want to do and work toward it.

Saturday Evening Letter

(By Justice J. E. Robinson)
June 3, 1922. I wish I were the Pope of Rome, instead of an humble candidate for a judicial office in a new western state. Then I would be the first Pope, as I am now the first judge, to offer to the masses and the world a Saturday Evening Letter. Then I would have my clergy teach every child and every person the way to health, success and happiness, in this world as well as in the world to come. Such teachings in the churches, schools and homes would soon lessen disease and lengthen our years. And as we pray the Lord to grant us in health and prosperity long to live, why should not the ways and means thereof be taught in every home, school and church? The wealth, success and happiness of every nation, does to a considerable extent depend on the laws and the state administration. Yet most people do not give to the state affairs half the time, thought and money that is given to games of pool and base ball. Because it is the business of everyone, it is to a great extent regarded as the business of no one. Hence those in control are left to do as they please. We fail to realize that eternal vigilance is the price of liberty. The state is merely a police and association. It is made by the people, and it is just what they make it. Like the Sabbath, the state is made for man and not man for the state. The only reason for its existence is that it may protect every one from wrong and oppression and aid him in the pursuit of safety and happiness. Yet, under bad laws or bad control, the power of the state may be used for oppression and robbery. The power may be used to levy excessive taxes, penalties, tributes and to build the people in servitude and poverty. To prevent and remedy political abuses we have in North Dakota the initiative, the referendum and the recall. The people may recall their public servants and make their own laws by their votes at any state wide election, and so they may reduce taxes and appropriations and limit the powers of taxation. To better the conditions of the people and to obviate the necessity for taxation, the state may engage in business enterprises the same as Hugo Stinner of Germany. Under that power, which was given in 1919, a commission of state officers attempted to conduct three business enterprises, but the attempt has proven a dismal failure. It has resulted in grossly excessive taxes and in the recall of the state officers. The result shows that business must be conducted on business principles and by expert managers. A private enterprise commences at the bottom and with means and experience it grows up in a natural way, like the Armour Packing Plant, but a state or a co-operative enterprise commences at the top, like the Fargo Packing Plant and the State Bank. It squanders the money of others. It commences with millions

ADVENTURE OF THE TWINS

By Olive Barton Roberts

Nancy and Nick were doing an errand for Mr. Peerabout, the Man-in-the-Moon.

Mr. Peerabout said something was wrong because on some nights when he had a fine, clear, bright moon for folks, the very next day he'd get complaints about it being pale or 'misty' or 'cloudy' or things like that.

So the Twins were watching.

The sun went to bed and all at once there was the old man over the tree-tops. It had been there all along, only it seemed to get bright just in a minute.

"The moon looks all right now," said Nick. "Mr. Peerabout said he would make it look like a dollar to-night. Only it looks more like a hundred dollars, it's so big."

"Big!" called down a cross voice out of the old hickory tree. "Big! I should say it is. But just you wait, it'll get fixed or my name isn't Chris Crow."

"Who'll fix it?" asked Nick, "and how?"

"Oh, I gotta friend," boasted Chris. "You see I got tired of that old moon nebbling about."

"Old Peerabout's got the idea that folks want a moon all the time, and he's everlastingly bringing the old thing around when it's not wanted."

"Here it is—a week past complaining and the grains are just sprouted enough to be delicious. But I can't even look at the corn. Old Scare-Crow would see me!"

"But I gotta friend!" he went on. "It's Comet-Legs! He doesn't like Peerabout. He'll blow the moon out for me."

"Ah, ha!" nodded Nancy wisely. (To Be Continued)

BROADHURST IS ATTACKED ON SEAS

Baltimore, Md., June 3.—When the steamship Columbia docked here from San Francisco, United States officials placed George H. Broadhurst, noted playwright and producer of New York, and J. B. Symon of San Francisco, under detention as the result of an alleged murderous assault committed by Symon on Broadhurst while the vessel was on the high seas.

The cause of the assault was not learned.

The black scarf worn by American sailors is in memory of seamen who died in previous wars.

HAPPY FELSCH LOSES IN CASE

Milwaukee, June 3.—Judge John Gregory, in circuit court today, handed down a ruling denying the motion of attorneys for Oscar (Happy) Felsch, to have Charles Comiskey, owner of the Chicago White Sox, and his son Louis, appear in Milwaukee for examination in connection with a suit in which Felsch seeks damages resulting from his expulsion from organized baseball as well as alleged back salary and bonus.

KEN WILLIAMS GETS 14th HOMER

St. Louis, June 3.—Kenneth Williams of the St. Louis Americans made his fourteenth home run of the season in the fourth inning of the game against the Chicago White Sox. Schupp was pitching. No one was on base at the time.

By making his fourteenth circuit clout, Williams went into the lead of major league home run swatters, thereby breaking his tie with Rogers Hornsby of the local National League club, who has 13.

MANDAN NEWS

FIND LONG LOST LOOT IN LOG HOUSE

Loot that has been missing for about a year was found Thursday at an old log house on the Fort Lincoln road about four miles south of the city yesterday when burglars broke into the Fleck Motor Sales company and carried away 15 tires and 20 tubes of all sizes.

Except for eight tubes, all the tires were found intact. It is believed that the booty was placed in the old house by thieves recently, but that they were afraid to dispose of the stock because the description and numbers of the tires and tubes had been well sent broadcast.

Arnold Meyers, young son of Grover Meyers, discovered the loot while he was playing around the old house as his father worked on the road nearby. He noticed a tie projecting from under the building and went to notify his father of his find. Further investigation revealed the entire loot in the attic of the building. The goods were valued at \$200 by R. J. Fleck, head of the local garage.

The public schools in Mandan closed yesterday for the summer vacation. A majority of the teachers left yesterday evening or will leave today for their respective homes.

The first of a series of Friday evening concerts was given yesterday evening by the Mandan Municipal band. Joseph Bergheim, director, had arranged for an interesting program which included many popular numbers.

U. C. T. MEMBERS ARE POINTING TO VALLEY CITY

Addresses by Nestos and McDowell to be Part of Program of Travelers

Valley City, June 3.—Addresses by Gov. R. A. Nestos, Wesley McDowell of Marion, and A. G. Bonhus, mayor of Valley City will feature the 25th annual meeting of the U. C. T. grand lodge of Minnesota and North Dakota at Valley City, June 8, 9 and 10.

Thirty councils of Minnesota and North Dakota, will be represented at the grand lodge meeting. Fargo lodge will attend 100 strong. In addition members will take with them their wives and sisters, for whom a program of entertainment has been arranged.

Valley City is well prepared to take care of the grand lodge visitors. The grand lodge opens Thursday morning, June 8 to 10 with a business session. There will be another business session in the afternoon.

The big program of the meeting will begin at 8:30 that evening with a drill on the Valley City State Teachers' college campus, put on by students of the college. At 7:30 p. m., A. G. Bonhus, mayor of Valley City, will give the address of welcome in behalf of the city. He will be followed by Gov. R. A. Nestos who will welcome visitors to Valley City in behalf of the state. Prof. Julius B. Myer will sing a solo. Wesley C. McDowell of Marion will then speak and he will be followed by music by the Normalians.

Following this program, beginning at 8:30 p. m. initiation work of the lodge will be put on. A good sized class of candidates will present themselves. The Fargo council officers will perform the work with the assistance of the patrol, captained by L. G. Simpson. The ritual work will be given. It is planned to introduce the women's drill team to the women's auxiliary, Fargo.

Friday at 9 a. m. the grand lodge will convene for a business session. Reports of committees will be heard. In the afternoon the annual election of officers will take place, the next meeting place decided upon and delegates to the supreme lodge, Columbus, Ohio, June 19, elected.

DEM. SENATOR HITS HARDING

Washington, June 3.—President Harding was charged today in the senate by Senator Stanley, Democrat, Kentucky, with attempting "to stifle if not muzzle" the press to prevent publication of attacks on Attorney General Daugherty and with making "a desperate attempt to shield a man who does not shield himself; to protect a man who dares not protect himself."

Senator Stanley assailed Mr. Daugherty as "the nefarious and crooked pardon broker who makes it his business to deceive the president that men may plunder women in time of peace and rob the federal government in time of war."

100 BABIES IN SHOW, CONTEST HELD AT ASHLEY

Ashley, N. D., June 3.—More than 100 babies in baby carriages, express wagons and older ones able to walk took part in the baby parade staged by this city. The babies in carriages were pushed by little girls.

One express wagon decorated with banners contained a pair of twins dressed in overalls and carrying little shovels and spades with a pile of sand between them. The pennant above them had "Health" and "Fresh Air" printed on them. These twins were drawn by another pair of twins from the same family. All of them radiated good health.

The little boys and girls marching behind the carriages carried American flags and posters: "Swast the Fly," "Don't Kiss Me," "Might Have Gotten," "Swast the Pacific," etc. After marching through the principal streets they went to the city hall where a crowd of proud mothers awaited them and an interesting program carried out.

Two trained nurses, assisted by the president and recording secretary of the League club, weighed and measured 38 babies. A prize of \$1 was offered for the nearest perfect baby under one year. William Miedstadt, aged 11 months, took the prize.

U. S. ACCEPTS INVITATION

Washington, June 3.—The American government has accepted the invitation of Great Britain to be represented on the commission which is to investigate alleged Turkish atrocities in Anatolia.

In announcing the decision today, however, the state department emphasized that as understood here the commissions duties are to be limited to making an inquiry into conditions purely for the information of the government participating. The United States, it was said, does not assume any further obligations by its participation.

LARGEST OAKS CLASS TO GIVE RADIO AS MEMORIAL

Oakes, N. D., June 3.—The Oakes high school will graduate the largest class in its history next Tuesday evening, when 28 young people will receive their diplomas from President J. H. Coulter of the board of education. C. E. Allen, president of the state teachers college at Valley City will deliver the address. Highest honors of the class go to Ione Roberts and Bernice Reko, who have been announced as valedictorian and salutatorian, respectively.

Nearly \$200 was realized by the

class from the annual senior play, to be used in purchasing a class memorial. This memorial, it was decided, is to be a radio receiving outfit, to be installed in the high school before the opening of school next fall.

MAYOR MODIFIES KNICKERS' ORDER

Traverse City, Mich., June 3.—Plans for a parade of women in protest against Mayor Swanton's order prohibiting their appearance in knickerbockers have been called off, the mayor having modified the ban. Knickerbockers may be worn, the mayor has decided, provided the wearers conduct themselves becomingly on the streets.

JUNE IS "MIND'S PLANTING TIME"

Asked why Dakota Business College, Fargo, N. D., begins its school year in June when all others open in fall, F. L. Watkins, Pres., said: "By planting the seed of business knowledge in June, our pupils' 'crop' is ready when there's the biggest market for it." He explained that most June pupils graduate in winter, the busiest season.

Even in "dull" months D. B. C. graduates are offered good places. Only recently Elizabeth Stajer was employed by the U. S. Veterans' Bureau. "Follow the Successful," wrote F. L. Watkins, Pres., 806 Front St., Fargo, N. D.
